PERSONAL PROJECTS

To-Do List (LINK)
- Made a To-Do List using HTML, CSS and vanilla JavaScript. Learnt about positions and DOM manipulation.

Music Player (LINK)
- Made a Music Player to test my skills into consolidating all my learnings of Elementary Web Development.

Responsive Site (LINK)
- A site that can be molded into any purpose and is made to look good in all platforms.

TinDog (LINK)
- Similar to Tinder, but specifically for the furry friends, Because they too can find their soulmate.

To-Do App React (LINK)
- A web app made by using React Redux for achieving a basic functionality.

Weather App (LINK)
- Made a simple weather app that gets the location and displays the weather using an API call.

Blog Site (LINK)
- Made a sample Blog Site that can be populated by data via API calls for automated working.

Student Display App (LINK)
- Made an app that can display student Data in a tabular manner and has the feature to add data on the fly.
